

LAB 1 - HELLO WORLD – CAIO CORSINI

```
#include <stdio.h>
```

```
int main() {  
    printf("Hello, World!\n");  
    return 0;  
}
```

The screenshot shows a code editor with a file named 'main.c'. The code is as follows:

```
1 #include <stdio.h>  
2  
3 int main(void) {  
4     printf("Hello World\n");  
5     return 0;  
6 }
```

Below the code editor, there is a 'Run' button and a status bar indicating 'Ask AI' and '107ms on 18:42:18, 08/25'. The output of the program is displayed in the console as 'Hello World'.
